

Jay Shippey

Technical Artist

thejayshippey@gmail.com | [linkedin/jay-shippey](https://www.linkedin.com/in/jay-shippey)

Dedicated developer with work in 2 published titles. Specialized in Unreal Engine. Equipped with a wide range of technical and artistic skills. Highly experienced with team communication and collaboration.

Experience

Digital Technical Designer Intern 2023 - 2024

Viking Group Inc.

- Developed fire sprinkler VR training courses in Unreal Engine.
- Shipped numerous playable valve configurations to the Virtual Viking product on Steam
- Designed and keyframed animations of the training courses for YouTube.
- Created material effects to aid in the realism of the simulations while monitoring performance costs.
- Improved visual effects and procedural assets.
- Communicated in person and through Teams frequently to ensure accuracy of the valves.
- Managed tasks through Jira.

Remote Intern 2023

Yeti CGI

- Learned how to prototype with the browser-based framework of CasualOS.
- Developed prototypes for tools such as a notes app and animated chart graphics.
- Collaborated with a Kickstarter to produce a playable introduction to CasualOS with CasualOS.
- Tested and ensured that the designs also worked on mobile browsers.
- Reported in daily with progress updates through Slack.

Programming Tutor 2021 - 2023

Ferris State University

- Met 1 on 1 online to help students understand course content, aiming to give the students the tools/philosophies to learn on their own.
 - Tutored for courses using Unity and Processing and taught classes when needed.
 - Provided students with a back and forth, encouraging, explorative environment based on the student's skill level.
 - Helped students brainstorm and develop their own more advanced ideas.
-
